Conditions for Growth in Denmark

-The Danish Growth Strategy-

August 2002

Conditions for Growth in Denmark presents a comprehensive survey of Denmark's international position in relation to the Government's central objective of increased growth. The aim is to measure Denmark's position in relation to a number of affluent countries in areas that are decisive for the level of prosperity and its future development.

Therefore, *Conditions for Growth in Denmark* contributes to directing focus towards the need for structural adjustment, which in the long run will help to secure Denmark a top-ranking on the list of countries with great prosperity.
